

# Handout: Self Assessment

Think about your congregation through the four settings and the eight processes. Make a notation in the appropriate boxes where a particular program is initiated, and then draw arrows to the other boxes if that program intentionally extends to any of the other settings (or processes).

	At Church	In Community	At Home	Online
Experience Caring Relationships				
Read and Learn the Bible				
Learn the Christian tradition and apply to life				
Worship with the community				
Celebrate rituals and milestones				
Learn to Pray and tend one's spirituality				
Serve needy, work for justice, care for creation				
Celebrate liturgical seasons				

# Handout: Self Assessment Sample

This handout provides some sample ideas for how to visualize faith formation programming on the grid.

	At Church	In Community	At Home	Online
Experience Caring Relationships	Grandparent/child retreat			
Read and Learn the Bible	"Dinner and a Bible" (Our Saviour Lutheran – Baltimore) Bible Times Market Place	Stated goal: evangelize the neighborhood	Home Bible activity	Bible Story activities from Vibrant Faith @ Home
Learn the Christian tradition and apply to life	Gathered support for parents, social experience for youth	Service to the community	Home Learning	Online Confirmation Program
Worship with the community	Intergenerational Music Ministry			
Celebrate rituals and milestones	Blessing during worship	Celebrate Graduation	Home ritual	Ritual Resources
Learn to Pray and tend one's spirituality		Prayer Garden at Senior Center		
Serve needy, work for justice, care for creation		"Holy Week Foot Washing" (St. Francis Catholic Church)	Home footwashing ritual	Online contributions (\$\$ and shoes)
Celebrate liturgical seasons	"Recreation" – Church Year Intergenerational Learning (Reformation Lutheran)		Home activities	Vibrant Faith @ Home

# Handout: Plan

This handout is the same as the assessment. Use it to either revise or extend a current faith formation effort, or to develop something new. Your idea should originate in one setting and in one process (i.e. pick the appropriate square), but then extend to others settings, and possibly other processes.
